

10 reasons to choose SpanishviaSkype

1 Convenience and flexibility

By breaking the “time-space barriers” of the traditional classroom, in our classes our students can learn Spanish from the comfort of their own home, office or anywhere else they choose (they don’t waste time travelling) and they can take their lessons whenever they want. The class times are flexible for their convenience and adapted to suit their agendas.

2 Practical approach

Our approach develops real-life language use for everyday situations. Our methodology is based on the development of communication skills, as recommended by the Common European Framework of Reference for Languages (CEFR). Our goal is for our students to interact with fluency in Spanish, that’s why we design our classes with an action-oriented approach in which content-grammatical and lexical language have a very practical function.

3 Custom designed courses

We design made-to-measure courses, based on the needs and the student’s level of Spanish. Our classes are individuals and one to one, just as if they were sitting opposite their teacher. We prepare our own material classes, making use of different Spanish as a foreign language (ELE) resources.

4 Teachers

Our teachers are highly-qualified. They are specialized in teaching Spanish language as a Foreign Language (ELE). They all have studied in International House, a center accredited by the Instituto Cervantes, and they have a good command of English (B2), allowing them to teach bilingual (ideal for students who have an A1 level in Spanish).

5 Ongoing Counseling

Our teachers offer academic support to students throughout the learning process. The students can have free correspondence by email with their teachers to ask any language doubts whenever is needed. SpanishviaSkype does regular ongoing evaluations to monitor each student's progress.

6 Classes for specific purposes

We design Spanish courses for specific purposes, such as Business classes, Spanish for Job Interviews, Spanish for Tourism or Medical Spanish. In these classes we introduce our students to realistic situations and the specialized vocabulary that professionals need to communicate with Hispanic members of the community in their daily work. We teach them how to handle in different situations (interviews, presentations, meetings, negotiations).

7 Material support

After each lesson, our students receive a lesson report in which the teacher points out all the issues highlighted in class. This will allow them to review their lesson and keep track of their progress. We also give them extra material and consolidation activities for after the class.

8 Motivation

Our classes are extremely challenging to motivate our students. We use written-audio-visual material as teaching aids (news items, articles, interviews, official documents, CDs and videos) on which the teacher and student will work together.

¿Alguien se ha planteado alguna vez cuánto tiempo se necesita para aprender bien español? Nosotros nos lo hemos preguntado y la respuesta la hemos encontrado en el Foreign Service Institute (FSI) del Departamento de Estado de Estados Unidos. Según este organismo, **se necesitan unas 600 horas de clase** para aprender español correctamente. [Sigue leyendo →](#)

9 Social media

SpanishviaSkype teachers are convinced that social networks encourage and enhance interest in learning a new language. This is why we have a blog (www.spanishviaskepe.com/blog), a Facebook page (www.facebook.com/SpanishClassesviaSkype) and a Twitter account (@spanish_skype) in which students can learn from our news updated information of interest about the Spanish language, discover new grammatical contents / lexicons and, of course, interact with their teachers.

10 Price

Our fees are really competitive. Moreover if you decide to buy our class offers (10, 20, 30 or 40). And remember, each lesson includes: a 50-minute class, a complete class report with the grammar and lexicon, extra material to work after the class and the teacher is always available to answer your doubts via email.
